DAVID WOOD
5th District Guthrie County
Board of Supervisors

It is time to rise up and demand performance from the Board of Supervisors. For example, my opponent, Mike Dickson, failed to attend 45 percent of the supervisor meetings during the 2014-15 fiscal year while receiving a $26,000 salary and full health care benefits.

I will efficiently and effectively represent Supervisor District 5 and all Guthrie County citizens. Currently, I am meeting with community leaders to know their concerns in order to better serve you.

I grew up as the son of teachers in rural Clay County and raised three children as a single dad. I have owned a home inspection company for 29 years and am a retired licensed architect who received an American Institute of Architects Design Honor Award. I designed and built a home in the Diamondhead area in 2004 .
